- a. Includes sugar subsidies and balance of payments assistance.
b. May be some double counting for economic and military aid since economic aid is computed from the trade deficit which may also cover some military aid shipments which are computed from unidentified trade residuals.
c. Estimates based on trade data.
d. Based on estimated shipments of combat equipment, priced at Soviet foreign trade prices.
e. The 3 countries together received about \$50 million-\$100 million.
f. Estimated combat equipment believed to have been shipped.
